***Allowable Subject Matter***

1. Claims 1-13 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding claim 1 and 3, the prior art of record discloses numerous methods for handoff a mobile terminal in a switching center, wherein the identifier of the mobile

---

terminal and base station is transmitted to the switching center in order to establish a connection.

The prior art of record does not specifically disclose the base station communicating a control information item for activating a forwarding feature as argued in Remarks (filed 12/14/04).

Regarding claims 2, 4-13, these claims are allowed as being dependent upon independent claims that have been allowed.

***Conclusion***
